Re: Solid Waste Alternatives Program (SWAP)

Jack Haberman:

The review committee has completed their evaluation of proposals received for the SWAP January 2011 round of funding. We are pleased to announce that Gateway Redevelopment Group has been selected to receive \$14,835 as a forgivable loan for the *Architectural Rescue Shop – Storage Barn* project. Congratulations.

The next step in the process involves drafting the contract. I will keep you posted on our progress regarding that objective.

It is very important that you **DO NOT** incur any costs that will be repaid with SWAP funds **prior to** a signed contract between Gateway Redevelopment Group and the Department of Natural Resources.

I look forward to working with you on this project. If you have any questions or concerns, please contact me at 515-281-8672 or jim.bodensteiner@dnr.iowa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Jim Bodensteiner".
